

ST-SB 10L

10 litres volume

Key Features:

Internal dimension: 300X240X150 mm (LxWxD)
External dimension: 330x270x330 mm (LxWxD)
Frequency: 28 or 40kHz for choice
Ultrasonic power: 240W
Heating power: 500W
Timer: 0-20min
Temperature: 20-80°C
Material: stamped stainless steel AISI 304,
without welding gap
Cooling system: high efficiency fans
Carring handles: yes / athermic
Drain outlet: yes / drainage water polo valve
Basket: included / stainless steel
Cover: sound proof
Control panel: mechanical
Power supply: 220Vac - 50Hz
Certification: CE

Ultrasonic tanks for precision washing

Customization

For more than 30 year we have provided tailored solution for a wide range of industries and companies. Our custom tanks are built to satisfy any customer needs giving you the reliability and durability you need in your business applications. Tailored sizes and higher frequencies (68kHz, 80kHz, 120kHz) can be supplied on a quote.
